

Twining Resources

Twining:

- a 'special work' of the Society of Saint Vincent de Paul. It is one of fraternal union and sharing
- a sharing of our prayers, our personal contacts, and our resources with conferences and councils nationally and internationally, that have less resources to conduct their work
- members wanting to pursue their Vincentian vocation to reach out to the poor, wherever they are.

Financial and Material Assistance

Financial assistance at regular intervals is the usual method of helping a twinned conference or council. There are specific National Council of Canada Guidelines for financial transfer of funds. Material assistance such as clothing, tools and equipment can be sent, keeping in mind appropriate government regulations for secure and lawful movement of such items.

Correspondence

A regular exchange of correspondence between twins will strengthen the bonds of understanding and friendship. Mutual communication can be about respective experiences, local area activities, interests, membership and personal matters. These correspondences can include photographs to share as well. It is essential that replies are received to correspondence on a regular basis, or at least once a year

There are National Policies and Guidelines available to assist twinning conferences and councils with their twinning program. Vincentians would be violating their duty of accountability owed to donors to the Society if they were to 'twin' with a person, group or organization outside the Society of Saint Vincent de Paul. The Rule* states that all monies collected in the name of the Society of Saint Vincent de Paul must be used for the work of the Society of Saint Vincent de Paul.
